League Structure 2018

- Dorchester contacted the committee, they no longer want to be part of a composite team with Weymouth and be their own team within the league. The league would then have 25 members which isn't workable with regards to the fixture matrix. The following options were discussed
 - Weymouth and Poole Runners join together as a composite team
 - Weymouth are not part of the league but can attend matches as non-scorers
 - The league is expanded to 28 teams.
- Weymouth and Poole Runners are meeting on 27th November, if they decided not to join together, the AGM have agreed that Weymouth can be non-scorers in the league and that Dorchester can join of their own accord
- It was agreed that the league would provide the letters at the beginning of season, clubs will still provide Quad kids numbers 1 – 120 (Front and Back)
